

The Green Panel

The Green Panel, Inc. is committed to assisting today's business community in its effort to go green.

ARE YOU GREEN YET?

What We Do

We offer a one-stop shop to engineer, furnish and install (EF&I) solar passive systems for tomorrow's energy demands. With our national network of engineers, installers and warehousing facilities, we dedicate 100% of our effort towards helping you implement and maintain your alternative/renewable energy initiatives.

Innovation and responsibility are the cornerstones to paving the way for a sustainable development of green energy through continuous technical innovation. We evaluate your company's renewable energy initiatives and establish parameters for effective implementation of solar energy.

Building relationships with solar energy is the foundation of our commitment to our customers.

GOING GREEN LIVING CLEAN

Building Relationships with Solar Energy

The Green Panel is committed to helping your business “go green”. We are dedicated to providing the highest degree of innovation with solar technology products and services. Our approach is comprehensive. We call it EF&I... Engineer, Furnish & Install.

Taking the First Step...

Where to start, what direction to take, and who to trust can be overwhelming questions when faced with a alternative/renewable energy initiative. A national network of engineers, technicians, inventory and warehousing facilities uniquely positions The Green Panel as the clear choice to Engineer, Furnish & Install your next alternative energy initiative.
